

## How You Can Help

# Donate

*Westman Aphasia Inc. helps people who live with a chronic communication disorder known as aphasia and their caregivers, family, friends, and health care providers. We do this by offering monthly conversation and support groups for the individual to help them with their communication skills, and for that person's support network to help them with the specific challenges that come with caring for and about their loved one.*

*WAI is one of the funded agencies of the Brandon & District United Way. We also rely on public and corporate support and grants to help make a positive difference in the life of someone who lives with aphasia.*
